**CATALYTIC ACTION
+
ALOE VERA**

Iaccel's nano-colloidal silver contains silver ions that kill bacteria by changing the bacteria's electrons. This creates a cascade of catalytic action that helps keep our body strong!

Aloe vera is known as "Nature's Miracle Plant". Iaccel's aloe vera is carefully processed to retain the medium and high molecular weight acetylated polymannan polysaccharides, responsible for much of the biological activity found in aloe vera.
